### EXCHANGE YOUR OLD BODY FOR A NEW ONE.

You can do it in three weeks and thereby renew your health. This article is written by a physician who has seen it demonstrated in numerous cases and explains how it is done.

Listen: If your weight is one hundred and thirty-three pounds your body contains eighty pounds of water, for, according to standard medical books, the human body contains sixty-seven and one-half per cent. of water. Now disease is invariably caused by impurities which we call poison, and these are readily dissolved by the right kind of natural mineral water. Drink ten gallons (eighty pounds) of Shivar Mineral water (use no other water for twenty-one days), and you will have exchanged your old body for a new one, so far as the soluble part of it is concerned. The impurities will be dissolved and pass away. If you suffer with dyspepsia, indigestion, sick headache, rheumatism, gall stones, kidney or liver disease, uric acid poisoning, or other conditions due to impure blood, accept Mr. Shivar's liberal offer which appears below. Read the following letter carefully; then sign and mail it:

Shivar Spring,  
Box 14-G, Shelton, S. C.  
Gentlemen:

I accept your guarantee offer and enclose herewith two dollars for ten gallons of Shivar Mineral Water. I agree to give it a fair trial, in accordance with instructions contained in booklet you will send, and if it fails to benefit my case you agree to refund the price in full upon receipt of the two empty demijohns which I agree to return promptly.
